DRAFT

Contract Scope:

ARTICLE: 1

1.1In general the scope of the Contractor will include The scope includes supply, delivery, installation, configuration, and commiss

ioning of the LG 65TR3DK-I interactive display panel with all necessary accessories (e.g., wall mount kit, cables, remote control, stylus pens) at the designated location, ensuring proper functionality. The supplied unit must be the original LG 65TR3DK-I with factory-sealed packaging, matching the technical specifications as per manufacturer datasheet, including: 65" 4K UHD display,Android OS (v13 or latest)

,Infrared Touch (40-points support),Minimum 8 GB RAM and 64 GB storage Built-in Wi-Fi, Bluetooth, HDMI, USB ports and other items as mentioned in Annexure.

1.2Supply and Installation - Supply and installation of LG 65TR3DK-I as per the approved specifications and locations. Mounting and power connectivity, and integration with existing AV/IT systems.

1.3Testing and Commissioning -The contractor shall be responsible for the complete testing and commissioning of the LG 65TR3DK-I Interactive Display Panel after installation. This includes powering up the unit, verifying all input/output ports (HDMI, USB, LAN, Audio), touchscreen calibration, network connectivity, preloaded software functionality, and resolution checks. Integration with existing AV systems and network shall be demonstrated. A functional demonstration must be provided to the client's representative post-commissioning. All testing shall comply with the OEM guidelines and standard operating procedures. A sign-off from the end user or designated authority is mandatory to consider the system commissioned.

1.4Warranty - The LG 65TR3DK-I Interactive Display Panel shall be supplied with a comprehensive onsite warranty of 3 years from the date of successful installation and commissioning. The warranty shall cover all manufacturing defects, hardware failures (including touchscreen, display, ports, internal boards), and software malfunctions under normal usage conditions. The vendor shall ensure prompt service support, including repair or replacement of faulty parts at no additional cost during the warranty period. Any downtime beyond 72 hours must be informed in writing with justification. Warranty registration with the OEM (LG) must be completed by the contractor and documented accordingly.

1.5The work shall be carried out as per drawings, specifications as per relevant IS codes and instructions of the Engineer-in-charge along with all required materials, manpower with tools & tackles, machineries etc. complete.

1.6Scope of includes installation, testing, commissioning, Training and handing over of the system at site all in contractors Scope.

1.7No activity will be carried out without responsible contractor's representative on site.

1.8You shall clean & clear the site after completion of work and maintain proper housekeeping during execution of the work at site.

1.9Approval must be needed for the all material; sample will be submitted to client along with detail catalogue.

1.10All materials shall be new of the best quality conforming to specifications and subject to the approval of Engineer in Charge. All material, equipment, fittings used in the installation shall be of approved quality conforming to relevant IS specifications.

1.11Warranty - The Contractor shall provide a warranty/guarantee for the workmanship and materials used for a period as specified, starting from the date of completion. Any defects arising during this period shall be rectified by the Contractor at no additional cost.

1.12Electricity shall be provided by the owner at one point only. Further distribution and wiring for the same is in

contractor's scope. In case of activities after dark proper permission will be taken from the Site In charge, after displaying proper arrangement for the same. Permission of works at night will be totally at the discretion of the owner/PMC and the request for same may be refused.

1.13Safety - The Contractor shall ensure full compliance of Safety Code. All measures to ensure safety of workers and plant at site such as safety belts, safety helmets, safety goggles, safety gloves and safety shoes must be made mandatory for use on site, responsibility of which shall be taken by the Contractor. No Smoking & Spiting is allowed in the premises of site. The contractor shall ensure full compliance of safety during using machinery with electrical wire. Electrical wire don't should not kept open. Non-compliance or non-conformance with EHS Requirements stated or implied shall be treated as offence. Contractor, its staff and workers will be penalized for each offence. Maintain proper documentation of safety protocols and adhere to all site-specific safety requirements.

1.14Statutory Compliance - The Contractor shall fully comply with all applicable statutory and regulatory requirements, including but not limited to labor laws, safety standards, environmental regulations, and local authority mandates. The Contractor shall indemnify and hold the client harmless against any penalties, fines, or legal action resulting from non-compliance with statutory obligations. Failure to adhere to these statutory obligations may lead to termination of work and potential penalties as deemed appropriate by the client.

1.15Labor Camp : Labor camp will be set up by the Contractor, as per the CREDAI rules and regulations, i.e. No bamboo and chatai. Electricity and water supply for labor camp will be provided by the contractor, arrangement for the same to be made by the Contractor (Builder will provide one main supply point, further distribution will be done by the Contractor, Contractor to employ one qualified Electrician for safety and proper wiring within the labor camp).

1.16Completion Period - Time is the essence of this order and hence the execution schedule should be strictly adhered to. Contractor shall abide by the schedule integrated with general contractor agreed between client and contractor for execution of the work and shall throughout the term of the order co-operate with builder to avoid any delays in the completion.

1.17Payment stages - Payments will be made on a pro-rata basis, aligned with the progress of work completed on-site. Each payment will be processed upon certification and approval by the Site In-Charge.

Note: All payments by the client's accounting department will be released within 30 days of receiving the certified contractor's i

nvoice. Payments will be made through account payee Cheque or by money transfer to Contractor's Bank account.
